

## Invited Speaker

**Dr Suan Hui Pu**  
**University of Southampton Malaysia**

Suan Hui Pu received the M.Eng. degree in mechanical engineering from Imperial College London in 2006 and the Ph.D. degree in electrical and electronic engineering from Imperial College London in 2010. He was a Product Engineer with Infineon Technologies (Kulim) Sdn. Bhd., from 2010 to 2012, working on yield enhancement for a power ASICs in a frontend wafer fab. He is currently an Assistant Professor at the University of Southampton Malaysia (UoSM) and a visiting academic in the Faculty of Engineering and Physical Sciences, University of Southampton, U.K. He has published more than 50 peer-reviewed papers in international journals and conferences. His current research interests include MEMS/NEMS sensors and actuators, nanocrystalline graphite gas sensors, printed electronics and wearable technology. Dr. Pu is currently serving as a technical committee member for IEEE Electronics Packaging Technology Conference (EPTC). He is a reviewer for IEEE Journal of Microelectromechanical Systems, IEEE Electron Device Letters and IEEE Transactions on Components, Packaging and Manufacturing Technology.
