

Ref. No.: SENSOR AND NANO 2019

24 July 2018

To Whom It May Concern,

Dear Sir/Madam,

Sponsorship for 2019 IEEE International Conference on Sensors and Nanotechnology (SENSORS AND NANO 2019)

On behalf of the Organizing Committee, I am pleased to announce that the IEEE International Conference on Sensors and Nanotechnology (SENSORS AND NANO 2019) will be held on 24th-25th July, 2019 at Penang Island, Malaysia.

The conference will covers various topics in the field of nanotechnology and sensors, varying from materials, devices and, emerging and special applications. The conference is organized by IEEE Malaysia Section Sensors and Nanotechnology Joint Councils Chapter and Jointly-organized by the School of Microelectronic Engineering (SoME), Institute of Nano Electronic Engineering (INEE) and Centre of Excellence for Advanced Sensor Technology (CEASTech) Universiti Malaysia Perlis (UniMAP). All presented papers will be considered to be published in Scopus-indexed IEEE Explore.

We have identified a number of sponsorship opportunities. We would like to extend our sincere welcome for your company to take this opportunity to put your name alongside the other contributing dignitaries.

Please find the enclosed copy of conference sponsorship proposal for your perusal. Your kind support is greatly appreciated.

Thank you.

Yours sincerely,

ASSOC. PROF. Ir. Dr. MOHD KHAIRUDDIN MD ARSHAD

IEEE International Conference on Sensors and Nanotechnology 2019

(SENSORS AND NANO 2019)

24 & 25 July 2019
[Penang, MALAYSIA]

The IEEE International Conference on Sensors and Nanotechnology (Sensors and Nano 2019) is a conference with the scope covering various aspects of sensors and nanotechnology. Hosted by IEEE Malaysia Section Sensors and Nanotechnology Joint Councils Chapter, it provides a platform for presentation, discussion, and exchange of state-of-the-art information including the latest research and development in sensors and nanotechnology related fields. We welcome contributions from both academic and industry-based researchers.

Sensors and Nano 2019 will bring together researchers, developers, and practitioners from diverse fields including international scientists and engineers from academia, research institutes, and companies to present and discuss the latest findings in the field of sensors and nanotechnology. This conference will be a cauldron of experience and knowledge of cutting edge technology, with the presence of well-known distinguished speakers with outstanding experiences and researches in the field of sensors and nanotechnology.

Be a part of this exciting conference to expand your/your company's networking and visibility in the world of sensors and nanotechnology.

The topics of interest, arranged into Sensor Tracks (ST) and Nano Tracks (NT), include but are not limited to:

Sensors Track (ST)

ST 1: Sensor Materials and Architectures

ST 2: Emerging Machine Learning and Sensor Applications

ST 3: Internet of Things, Wireless Sensor Networks, Security, Architectures and Applications

ST 4: Energy, Environment and Green Technology

Nanotechnology Track (ST)

NT 1: Materials and Devices

NT 2: Properties, Fabrication and Application of Materials of Interests.

NT 3: Special Applications of Nanotechnology

NT 4: Nanofabrication, Nanostructures and Nanosystems

Target audience: 150 pax. (Engineers, Researchers, Industry Partners, Scientists, Technopreneurs, Students)
